

# FLE Math Curriculum

## Go Math

- Go Math, a Houghton Mifflin Harcourt program, is a K-8 Math Curriculum.
- Go Math takes a comprehensive approach to math instruction, moving smoothly from the concrete to abstract, while providing opportunities for real-world learning.
  - It provides teachers with opportunities and strategies to differentiate instruction within the classroom.
  - The program features a digital platform that is both fun and engaging for students.
  - The digital platform provides comprehensive reports for teachers and administrators.
- Go Math is a research-based, balanced approach to providing Math instruction in an ever-changing educational world.
- Waggle is the adaptive practice component of Go Math. Students complete a Growth Measure test and then Waggle assigns lessons based on the student's score.
